

ENTRY LEVEL ENGINEER
CIVIL ENGINEERING DIVISION

Company Description:

Coastal Engineering Company, Inc. is an employee-owned, multi-discipline consulting firm supporting smart growth. We combine engineering expertise, regulatory understanding, and sustainable building practices to create economically feasible and environmentally responsible designs. Every day, we challenge ourselves, striving to meet and exceed the expectations of our clients and partners. Our mission is simple: To provide solutions for the benefit of our clients and community. We achieve this by fostering a supportive and dynamic working environment for our employees to learn and grow while engaging on inspiring and challenging projects. At Coastal, you can drive your own career growth. If you are a talented, creative, and goal-oriented individual with an interest in making a positive impact, we would love to hear from you!

Position Description:

Our Civil Engineering Division has an immediate opening for a self-motivated Civil Engineer to provide support to Project Managers and Project Engineers in the division.

As a **Civil Engineer**, your responsibilities will involve performing a variety of in-office and field tasks associated with civil engineering projects obtained by the company. Duties would include, but not limited to, the following:

- Perform routine technical work including data collection, engineering and survey computations and analysis.
- Engineering and survey field work.
- Design tasks and drawing preparation.
- Soil testing for subsurface sewage disposal system and drainage system designs.
- Site inspections.
- Assist Project Managers and Project Engineers in preparation of project deliverables including:
 - Subsurface sewage disposal systems and sewer connections
 - Site development plans, road plans, and stormwater drainage system plans.
 - Reports and letters.
- Positively contribute to company culture and participate in ongoing learning and training opportunities.
- Other duties as appropriate.

Qualifications:

- Bachelor of Science in Civil Engineering from an accredited program.
- EIT certification preferred.
- Must have some experience using AutoCAD for preparation of site plans.
- Ability to communicate and develop working relationships with staff, clients, and other professionals.
- A motivated team player with a positive attitude looking to grow and further their career.
- Valid driver's license.

Benefits:

We offer a competitive compensation package that includes a transparent bonus program, health, dental, disability, and life insurance, 401k with employer contribution, a generous holiday and paid time off package, and growth opportunities as we continue to scale.

Coastal Engineering Company, Inc. is committed to providing an equitable, diverse, and inclusive workplace and is an EO/AA/Veterans/Disabled employer. All qualified applicants, including individuals with disabilities and veterans, are encouraged to apply.

Coastal Engineering Company, Inc. participates in the E-Verify employment authorization program.
