

STRUCTURAL BIM TECHNICIAN

Coastal Engineering Co., Inc. is seeking a Building Information Modeling (BIM) Technician to provide support to our Structural Engineering Division.

Job duties include:

- Coordinate the production of project deliverables, including project 2D drawings and 3D models.
- Provide 3D building models, built from architectural information to the design team for use in structural analysis and design.
- Maintain structural engineering production template and typical detail library.
- Maintain all aspects of structural models, including file management and best practices.
- Enforce office standards for drawing production and review work completed by others for these standards.
- Review all building models to ensure they are appropriately modeled.
- Other duties as appropriate.

Qualifications:

- Bachelor of Science or Technical Degree.
- Minimum of five years of experience.
- Ability to work independently from based on direction from project managers.
- Expertise in using Autodesk Revit and AutoCAD Architectural Desktop (working knowledge of Autodesk Civil 3D a plus).
- Valid driver's license.

Coastal Engineering Co., Inc. has offices in Orleans, Sandwich, and Nantucket, all just a few miles from beautiful Cape Cod beaches. Recreational and cultural opportunities abound. The company offers an attractive benefits package including health, dental, disability, and life insurance, 401K, and a generous holiday and paid time off package. EOE.
