

BIM COORDINATOR

STRUCTURAL ENGINEERING DIVISION

Company Description:

Coastal Engineering Company, Inc. is an employee-owned, multi-discipline consulting firm supporting smart growth. We combine engineering expertise, regulatory understanding, and sustainable building practices to create economically feasible and environmentally responsible designs. Every day, we challenge ourselves, striving to meet and exceed the expectations of our clients and partners. Our mission is simple: To provide solutions for the benefit of our clients and community. We achieve this by fostering a supportive and dynamic working environment for our employees to learn and grow while engaging on inspiring and challenging projects. At Coastal, you can drive your own career growth. If you are a talented, creative, and goal-oriented individual with an interest in making a positive impact, we would love to hear from you!

Position Description:

Our Structural Engineering Division has an immediate opening for a BIM Coordinator to provide support to our engineers.

As a **BIM Coordinator**, your responsibilities will involve performing a variety of in-office and field tasks associated with structural engineering projects obtained by the company. Duties would include, but not limited, to the following:

- Coordinate the production of project deliverables, including 2D drawings and 3D models.
- Provide 3D building models built from architectural information to the design team for use in structural analysis and design.
- Maintain structural engineering production template and typical detail library.
- Enforce office standards for drawing production and review work completed by others for these standards.
- Review building models to ensure they are appropriately modelled.
- Responsible for all aspects of structural models, including file management and best practices.
- Positively contribute to company culture and participate in ongoing learning and training opportunities.
- Other duties as appropriate.

Qualifications:

- Bachelor of Science or Technical Degree.
- Minimum of five years of experience.
- Expertise of using Autodesk AutoCAD Architectural Desktop and Revit (working knowledge of Autodesk Civil 3D a plus).
- A motivated team player with a positive attitude looking to grow and further their career.
- Valid driver's license.

Benefits:

We offer a competitive compensation package that includes a transparent bonus program, health, dental, disability, and life insurance, 401k with employer contribution, a generous holiday and paid time off package, and growth opportunities as we continue to scale.

Coastal Engineering Company, Inc. is committed to providing an equitable, diverse, and inclusive workplace and is an EO/AA/Veterans/Disabled employer. All qualified applicants, including individuals with disabilities and veterans, are encouraged to apply.

Coastal Engineering Company, Inc. participates in the E-Verify employment authorization program.
