

CONVENTION DATA SERVICES HEADQUARTERS

Bourne, MA

Convention Data Services (CDS)—event registration, business intelligence, and lead capture partner servicing show organizers worldwide—is one of Cape Cod’s largest employers. Recently, CDS has invested in infrastructure to support the company’s strategic growth and foster the right corporate culture. The new Bourne Technology Park headquarters have 50 percent more capacity at 30,000 square feet, are environmentally friendly—solar powered and highly energy efficient—and offer many indoor and outdoor amenities. Coastal Engineering Company is honored to have been a part of this project providing structural engineering for the foundation and site layout for the construction.

SERVICES

- Foundation design
- Construction layout
