

MARINE PUMPOUT FACILITIES

Barnstable, Boston, Fairhaven, Falmouth, Gosnold, Hingham, New Bedford, Provincetown, Salem, and Scituate, MA

Coastal Engineering Co. designed marine pumpout facilities for Massachusetts Coastal Zone Management in Barnstable, Boston, Fairhaven, Falmouth, Gosnold, Hingham, New Bedford, Provincetown, Salem, and Scituate, MA in support of Vessel No Discharge Areas. The marine pumpout facilities were primarily designed to serve commercial vessels.

SERVICES

- Identify pumpout service capacity needs and design parameters for each site
- Design of marine pumpout facilities
- Design of connections to municipal sewer systems
- Coordination with State and local officials
- Preparation of environmental permitting documents
