

# CENTER FOR ACTIVE LIVING

Town of Sandwich, MA

Coastal Engineering Co. worked with Bargmann Hendrie + Archetype on designing a new Center for Active Living. The facility is under construction on town property adjacent to the existing Public Safety Complex. It consists of a two-story building that includes meeting and activity rooms, a cafe, office space, and a gymnasium with walking track. The total square footage of the structure is proposed to be 26,000 sq.ft., with an overall project budget of \$13.2 - \$13.5 Million.
