

# TOWN OF EASTHAM MARINA

Rock Harbor, Town of Eastham, MA

Coastal Engineering Co. has provided engineering and environmental permitting services to the Town of Eastham in connection with a reconfiguration and replacement of the existing 4200 sq.ft. float system and two existing timber piers that service the marina. All the work was completed in a tight timeframe in the off-season.

## SERVICES

- Data accumulation plan
- Engineering design and plan preparation
- Environmental permitting on local, state, and federal levels
- Bidding assistance
- Construction phase services
